Gretel is a wonderful, happy, friendly, affectionate little girl..! She plays well with her other young foster and 3 much larger and older Labs. She's very social and loves to jump up and lick and kiss anyone she meets, she also knows how to be submissive and roll on her back and allow other dogs to meet and sniff her.. Gretel seems to be very intelligent, she very quickly how to learn a doggie-door and is very water friendly. I don't have kids or cats but I think Gretel would be a wonderful pet in any type of household and she definitely deserves a wonderful home!
Thank you!
